

Manheim Utah — Auction Opportunity & Profit Analysis

Prepared 2026-06-17 | Source: your Export_5.csv (30 live/upcoming units, sale ends 2026-06-18) | Benchmark: MMR (Manheim Market Report wholesale value)

How profit is calculated

Potential Net = MMR – Winning Bid – Recon – Fees. MMR is the wholesale market value you can re-realize. Auction fees estimated at **\$600** (buy fee + misc). Recon estimated from the Condition Report grade (≥ 4.0 clean $\approx$ \$400, 3.0–3.9 $\approx$ \$900, 2.0–2.9 $\approx$ \$1,600, < 2.0 rough $\approx$ \$2,800). **Recommended Max Bid** = the most you can pay and still net the \$1,500 target margin (= MMR – recon – fees – \$1,500). Recon/fees are estimates — confirm against the actual condition report. “Buy-box fit” flags whether the unit matches your retail rules (2016+ $\leq$ 110k mi, or 2010–2015 $\leq$ 120k mi).

1) Live-priced opportunities (a bid or buy-now is on the board now)

Vehicle	Miles	CR	MMR	Current	Type	Recon	Est Net	Verdict	Fit
2020 BMW 7 Series 750i xDrive	35,761	-	\$33,600	\$32,500	Bid	\$1,200	-\$700	PASS	FITS
2022 Chevrolet Malibu LS	103,653	1.6	\$7,600	\$6,500	Bid	\$2,800	-\$2,300	PASS	FITS
2018 Chevrolet Silverado 1500 LTZ	128,652	2.4	\$14,600	\$14,850	Buy-Now	\$1,600	-\$2,450	PASS	OUTSIDE miles>110k
2019 Ford Edge SEL	84,652	2.5	\$8,650	\$12,500	Buy-Now	\$1,600	-\$6,050	PASS	FITS

2) Retail-upside standouts (seller posted book values)

Vehicle	MMR	JD Clean Trade	JD Retail	KBB Lending	Retail spread vs MMR	Note
2018 Chevrolet Silverado 1500 LTZ	\$14,600	\$21,000	\$23,000	\$16,000	\$8,400	2018 Silverado 1500 LTZ
2019 Ford Edge SEL	\$8,650	\$10,000	\$12,300	\$10,700	\$3,650	2019 Ford Edge SEL (emissions ready, clean)
2020 BMW 7 Series 750i xDrive	\$33,600	\$35,950	\$44,000	\$36,880	\$10,400	2020 BMW 750i xDrive - battery ~\$1k, possible mileage inconsistency, verify Carfax

Retail spread = posted JD Power full retail – MMR. Realizing it requires retailing the unit (recon, recon time, lot/retail costs) vs a quick wholesale flip at MMR.

3) Full bid guide — recommended max bid for every unit

Vehicle	VIN	Yr	Miles	CR	MMR	Recon	Max Bid (net \$1,500)	Fit / flag
BMW 7 Series 750i xDrive	WBA7U2C08LCD35570	2020	35,761	-	\$33,600	\$1,200	\$30,300	FITS • retail upside

Executive summary

- **30** units analyzed. **27** fit your retail buy-box (2016+ $\leq$ 110k or 2010–2015 $\leq$ 120k); **3** fall outside (mostly >110k miles — fine for wholesale flips, not your retail rules).
- **4** units have a live bid/buy-now. Of those, **0** clear the \$1,500 net target at the current price: none yet — most still need the price to come to your max bid.
- **Retail standouts** (seller-posted books): 2018 Silverado LTZ (JD retail \$23k vs MMR \$14.6k), 2020 BMW 750i (JD retail \$44k vs MMR \$33.6k — but battery + mileage flags), 2019 Ford Edge SEL.
- **Best clean-condition wholesale plays** (CR $\geq$ 4): 2021 Mustang Mach-E GT (MMR \$28.4k, CR 4.5), 2020 Hyundai Kona SEL (MMR \$13.45k, CR 4.1, 42k mi — fits buy-box).
- **Avoid / caution:** grade <2.0 units (heavy recon) and the high-MMR BMW until the battery cost and odometer discrepancy are verified against Carfax.

Disclaimer: recon and fee figures are estimates for ranking; MMR reflects the export's snapshot and moves with the market. Confirm each unit's condition report, announcements, and title/Carfax before bidding. JD Power / KBB figures shown are only those the seller posted in the export; a full Carbyl enrichment on these VINs can be run after the live KSL sweep finishes.
